Start Date: FY06

Expected Duration: FY15

Long-term Goal: Support existing relict leopard frog conservation programs.

Conservation Measures: RLFR1

Location: Reach 1, NV

Purpose: Provide funding to support existing relict leopard frog conservation programs.

Connections with Other Work Tasks (past and future): This is a stand-alone conservation measure as described in the LCR MSCP.

Project Description: The LCR MSCP will assist and contribute to existing relict leopard frog research and conservation efforts initiated by the Relict Leopard Frog Conservation Team. Ten thousand dollars per year, for a period of 10 years, will be contributed to the Leopard Frog Conservation Team to implement planned, but unfunded, conservation measures. Funding may be advanced for up to 5 years, depending on availability, to keep administrative costs at a minimum.

Previous Activities: This was a new start in FY06.

FY06 Accomplishments: Funds in the amount of \$10,000 were transferred to the NPS through a 5-year agreement. Funds were moved in August FY06, therefore the first accomplishment report will be provided in FY07.

FY07 Activities: Funds in the amount of \$10,000 will be transferred to the NPS through a 5-year agreement. A report will be provided to Reclamation summarizing the monitoring of experimental and natural populations of relict leopard frogs, and frog rearing and relocation activities by September 30, 2007.

Proposed FY08 Activities: Funds in the amount of \$10,000 will be transferred to the NPS through a 5-year agreement. A report will be provided to Reclamation summarizing the monitoring of experimental and natural populations of relict leopard frogs, and frog rearing and relocation activities by September 30, 2008.

Pertinent Reports: The scope of work is available upon request from the LCR MSCP.
